

## Appendix T — References

Below are listed a number of relevant web sites, though certainly not all that are available. Any omission is not intended as a pejorative rating, but merely a lack of space.

A wealth of information can be found on the internet. Whether you are searching for a manufacturer, State statutes or general information, you can find the latest information on-line.

**Hyperlinks** — Obviously no one can link directly to a paper page, but *we've done the next best thing!* We've added this Appendix to our web page [www.FirearmFundamentals.net/More](http://www.FirearmFundamentals.net/More) and you can download these references as a PDF with live links. When you click on any reference in the PDF it will take you right to the destination link (providing you're active on the internet).

**NOTE:** All sites listed were tested and recently verified, but may change over time.

(Internet addresses are typically preceded by **http://** but it is assumed and need not be entered as part of the address.)
